PROCLAMATION 2642

ARMY DAY, 1945

BY THE PRESIDENT OF THE UNITED STATES
OF AMERICA

A PROCLAMATION

WHEREAS our valiant Army by its heroic achievements in carrying the war to the territory of our enemies and by its great victories during the past year has strengthened the confidence of this Nation and its Allies in their vast struggle against tyrannical powers seeking to enslave the world; and

WHEREAS American soldiers in their unflinching devotion to duty are suffering and dying in defense of our land and our spiritual heritage; and

WHEREAS the armies of the United Nations with strength born of unity are liberating the oppressed, and by their victory over tyranny are laying the foundation of a world order to make secure those freedoms for which they fight; and

WHEREAS the Congress, by Senate Concurrent Resolution 5, 75th Congress, agreed to by the House of Representatives on March 16, 1937, has recognized April 6 of each year as Army Day and has requested that the President issue a proclamation annually with respect to that day:

NOW, THEREFORE, I, FRANKLIN D. ROOSEVELT, President of the United States of America, in order that we may give special honor to our courageous soldiers, do hereby proclaim Friday, April 6, 1945, as Army Day, and do invite the Governors of the various States to issue proclamations calling for the observance of that day.

I also urge the civilians of this Nation to renew their energies for the task of supplying our Army with every necessary implement of war to the end that final victory may be attained as speedily as possible, and to resolve that the peace which follows victory shall be firmly sustained.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States of America to be affixed.

DONE at the city of Washington this 12th day of March in the year of our Lord nineteen hundred and [SEAL] forty-five, and of the Independence of the United States of America the one hundred and sixty-ninth.

FRANKLIN D. ROOSEVELT

which at least \$12,000 has already been expended. This amount exceeded the permissible limitation of \$5,000 for such construction provided by Conservation Order L-41. The responsible officers of the corporation were aware of War Production Board restrictions on construction, and doing this construction without authorization was a grossly negligent violation of Conservation Order L-41.

This violation of orders and regulations of the War Production Board has diverted critical materials to uses not authorized by the War Production Board. In view of the foregoing, it is hereby ordered, that:

§ 1010.739 *Suspension Order No. S-739.* (a) Neither the Duffy Silk Company, its successors or assigns, nor any other person, shall do any construction

on the aforesaid premises at 1270 Broadway, Buffalo, New York, including putting up or altering the structure, unless hereafter specifically authorized in writing by the War Production Board.

(b) The provisions of this order shall not apply to maintenance and repair, as defined or governed by Conservation Order L-41 as amended from time to time, which involves no alterations, structural or otherwise, no change in design and no change in type or kind of materials.

(c) Nothing contained in this order shall be deemed to relieve The Duffy Silk Company, its successors or assigns, or any other person, from any restriction, provision or prohibition contained in any other order or regulation of the War Production Board, except insofar as the same may be inconsistent with the provisions hereof.

Issued this 14th day of March 1945.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-740]

SEATTLE TIMES CO.

Seattle Times Company is a Washington corporation and publishes the Seattle Times, a daily and Sunday newspaper, at Seattle, Washington. During the first quarter of 1944 the Seattle Times used or caused to be used 284 tons of print paper in excess of the quota of print paper which it was permitted to consume during said quarter under the provisions of Limitation Order L-240, and in violation of that order.

This excessive use of paper has diverted scarce material to uses not authorized by the War Production Board. In view of the foregoing, it is hereby ordered, that:

§ 1010.740 *Suspension Order No. S-740.* (a) Seattle Times Company, its successors or assigns, shall reduce its consumption of print paper during the last three calendar quarters of 1945 by 284 tons under the consumption quota it would otherwise be entitled to use under the provisions of Order L-240, unless otherwise specifically authorized in writing by the War Production Board. Such reduction shall be at the rate of at least 90 tons per calendar quarter.

(b) Nothing contained in this order shall be deemed to relieve Seattle Times Company, its successors or assigns, from any restriction, prohibition, or provision contained in any other order or regulation of the War Production Board, except insofar as the same may be inconsistent with the provisions hereof.

(c) Issued this 14th day of March 1945.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

PART 944—REGULATIONS APPLICABLE TO
THE OPERATION OF THE PRIORITIES
SYSTEM

[Priorities Reg. 13 as Amended Mar. 15, 1945]

§ 944.34 *Priorities Regulation 13—(a)*

Purpose of this regulation. This regulation describes the rules under which materials may be sold by persons who are not in the regular business of selling such materials. While most sales of this kind will be sales of frozen, idle, or excess materials the regulation also covers any sale from inventory by such persons. For example, a person who has idle materials on hand because his business has been converted to war work, or because the business he used to carry on has been stopped or limited by War Production Board orders, or whose contract has been cancelled or changed or who cannot use the material for the purpose for which he got it, may sell off the idle or excess materials only under the rules of this regulation. If he follows this regulation he does not have to look at any other order or regulation. This regulation also controls sales by Government Agencies, liquidation sales, bankruptcy sales, general auction sales, and other special sales, as defined in paragraph (b) (1). Transfers of materials from one plant or operating unit to another which is owned by the same person but which normally purchases separately are considered to be special sales.

(b) *Special definitions used in this regulation.* This regulation deals only with "special sales" of "materials". As used in the regulation, those terms have the following meanings:

(1) "Special sale" means a sale of a material or product by a person who does not, in the regular course of his business, sell it in that form. For example, if a manufacturer sells the raw material he has bought to use in making his regular product, it is a special sale because selling raw material is not his regular business. Or, if a contractor has bought building materials and equipment to build a building and cannot finish it and sells them, that is a special sale because his business is building houses, not selling lumber and nails and lighting fixtures. Liquidation sales by trustees in bankruptcy, receivers and other kinds of liquidators (unless they are continuing to operate a business) and sales by general auctioneers are special sales as that type of person is not considered to be regularly in the business of selling any particular products. All sales of surplus materials or products by Government Agencies are special sales.

(2) "Material" means any commodity, equipment, accessory, part, assembly, or product of any kind in finished, semi-finished or raw material form.

(3) "Used materials" means any materials or products which have been put into actual use.

(4) Sales not covered by this regulation. There are six types of sales which are not covered by this regulation. They are the following:

(i) Sales of plant generated scrap meaning scrap which is generated in the

course of manufacture or is the waste of industrial fabrication.

(ii) Sales of rationed products which are controlled by another Government Agency.

(iii) Sales of foods for humans or animals, medicines, tobacco, oils and fats, petroleum and petroleum products including natural and liquefied petroleum gases.

(iv) Sales of controlled materials acquired or produced by a controlled material producer for the purpose of further conversion into other controlled material forms.

(v) A sale of an entire business which is transferred as a going concern to a new owner who continues to operate it in the same or substantially the same form.

(vi) A sale made by a utility producer under Order U-1 or a petroleum operator under Order P-98-c.

(c) *Kinds of special sales which may be made.* If a person wants to make a "special sale" (as described above), the rules in this regulation apply and only these rules. He need not look at any other order or regulation, and these rules must be followed, no matter how the material was bought, and no matter what any other order or regulation provides. The types of special sales which may be made subject to the provisions of paragraph (f) (3) are the following:

(1) *Materials and products not on List A.* A holder may make a special sale of any material or product not on List A to any producer who makes such a product in the form in which the holder has it, or to a reprocessor, or to a wholesaler or retailer whose regular business is selling that sort of product. He may also sell it to a user, but the user may not use it for a purpose prohibited by War Production Board orders and regulations or he may sell it to a user who has been authorized by the War Production Board to use it for a particular purpose. Such sales may be made without requiring the buyer to apply or extend any preference rating or to obtain any authorization from the War Production Board. This paragraph does not apply to special sales for export which are covered by paragraph (c) (7) below.

(2) *Materials and products on List A.* If the material or product that the holder wants to sell is one of the materials or products listed on List A, the following are the only kinds of special sales that can be made. This paragraph does not apply to special sales for export which are covered by paragraph (c) (7) below.

(i) Special sales may be made in accordance with List A. That list has two columns showing classes of buyers who might want to buy. Opposite each item on the list in each column is shown whether, and under what conditions, sales can be made to the class of buyer described in the heading of the column.

(ii) A holder may sell any listed item freely to a producer or to a reprocessor unless a note in Column 4 states otherwise. A producer means any person who makes or produces the type of material or product which is being sold, and a reprocessor means any person who remakes, repairs or reworks new, re-

jected or second grade materials or products.

(iii) A holder may sell if he has been given permission by the War Production Board to make the particular sale. Form WPB-1161 (PD-470) should be used in applying for permission. It shows the information which is needed before permission can be given and it should be sent to the regional office of the War Production Board. If a note in List A states that another form is to be used, application should be made on that form.

(iv) A holder may sell freely to anyone if he has a total of not more than \$100 worth of the particular material or product to be sold, unless it is one of the few materials or products for which special rules and amounts are stated in Column 4 of List A. In deciding how much he has and whether he may sell, a holder must count all he has of the same kind or type of material or product. In other words, the right to sell under this subparagraph depends upon the total value (at cost to holder) of the material or product the holder has, not on the quantity he may want to sell at any one time. A holder may treat the inventory of each of his separate plants and operating units separately under this subparagraph. For the purpose of determining whether a particular lot of material or product is suitable for the prospective customer's use, a holder may transfer a sample lot with or without charge, providing the amount involved (at cost to the holder) of any such sample does not exceed \$20. In addition with respect to materials or products involved in a Government contract termination, this \$100 exemption applies if there is no more than \$100 worth of the material or product in the termination inventory at any one location, regardless of any notation in List A.

(v) If the material is copper, copper base alloy, aluminum or steel in a form described as a "controlled material" in CMP Regulation 1, the holder may sell it to a buyer who gives him an order bearing a CMP allotment symbol or number and this certification:

The undersigned purchaser certifies that he is entitled under CMP regulations to place an authorized controlled material order for the above material.

Or the certification may be in the form set out in CMP Regulation 7 or in any other form which may be used in placing an authorized controlled material order. Paragraph (v) of CMP Regulation 1 tells when the buyer must charge his allotment account. A holder may also fill an order bearing the standard certification described in PR 7 and the words "Purchased for resale in accordance with direction 48 to CMP Reg. 1."

(vi) Special permission to sell controlled materials. The War Production Board may give special permission to sell idle or excess controlled materials for any use which is permitted under War

Production Board orders or regulations either to a person who has no allotment or to a person who already has an allotment and an authorized production schedule under the Controlled Material Plan. If this permission is given, the holder need not get from the buyer the certification provided in paragraph (c) (2) (v) above and if the buyer has an allotment he does not have to charge against his allotment account the amount of controlled materials bought under this special permission. Either the buyer or the seller may apply for this permission in person or by writing, wiring or telephoning, giving full details about the size, shape, analysis, specifications and quantity of the material and the purpose for which it will be used. Requests for such permission should be directed to the field office of the War Production Board in the region in which the material is located or to the appropriate materials division.

(3) *Special orders.* If the War Production Board by an order or in any other way has ruled that all persons engaged in a particular business may sell or exchange materials between themselves, they may do so. For example, a special sale of controlled materials or class A products obtained under the controlled materials plan may be made as explained in paragraph (u) (4) in CMP Regulation 1 when directed by the War Production Board or on instructions of a Claimant Agency. Similarly, special sales of idle aircraft materials may be made as explained in Directive 16.

(4) *Sales to Government agencies.* For the purpose of making a settlement of a Government contract surplus materials or products may be transferred freely from any subcontractor or prime contractor to a procuring agency or disposal agency of the Government, providing the procuring agency has so directed. However, if such material is later withdrawn from the contract settlement, its disposition is controlled by this regulation. A person may also sell freely to one of the following Government Corporations or to anyone buying as agent for one of them, even if the surplus materials or products are not involved in a contract settlement: *Commodity Credit Corporation, Defense Supplies Corporation, Metals Reserve or Rubber Reserve Company.*

(5) *Used materials.* Used materials may be sold freely to anyone unless there is a notation in Lists A or B restricting the sale of the particular used material which the holder wants to sell.

(6) *Sales of materials or products as scrap.* Unless a note in List A states to the contrary or that another order governs the sale, this paragraph permits the sale as scrap of obsolete, unusable, or not readily salable materials or products which will be used or consumed principally as scrap, although some part of the material or product may possibly be salvaged by the scrap buyer. However, if the buyer by contract, warranty or otherwise has stated that the particular material or product being sold as scrap will be used or disposed of as

scrap, this regulation does not relieve the buyer from compliance with that condition.

(i) Unless a note in List A states to the contrary or that another order governs the sale, a holder may sell any material or product as scrap without stripping, disassembling or breaking it up before sale. Such sales may be made either to any consumer of scrap to be used only as scrap, or to any person regularly engaged in the collection, disassembling, sorting and disposal of that kind of scrap material, primarily for remelt or other scrap use. Subsequent sales of any salvaged materials or products by such a scrap dealer are not covered by this regulation, but are subject to any War Production Board orders or regulations which apply to the distribution of the particular material.

(ii) The sale at low prices, even as low as scrap prices, of prime or off-grade materials or products for use or resale "as is" does not constitute a sale as scrap and such sales may not be made under this paragraph. Instead such a sale is subject to all the other rules of this regulation which apply to sales of the particular materials or products.

(iii) This paragraph permits such sales only for use or resale within the U. S. A.

(7) *Special sales for export.* Where a special sale is made to a foreign purchaser or to a domestic purchaser who is buying for export or for resale to a foreign purchaser the following rules apply. If an exporter, other than a controlled material distributor or warehouse, is unable to export material purchased for export, he may dispose of it in the domestic market under the rules of this regulation applicable to such special sales.

(i) Materials or products not on List B may be sold in special sales without restriction.

(ii) Materials or products on List B may be sold in special sales in accordance with the conditions described in the list applying to the particular item. If the buyer cannot extend a preference rating equal to or higher than that shown for the item, or if the list states "No", special permission is required. Application should be made on Form WPB-1161 unless another form is specified in the remarks columns. However, in the case of copper, copper base alloy, aluminum or steel in controlled material form, either the buyer or the seller may apply for permission by letter in duplicate to the appropriate Controlled Materials Division, Washington, D. C.

(iii) Nothing in this regulation relieves any exporter from complying with all applicable regulations of the Foreign Economic Administration or other Government Agencies who may have jurisdiction over exports.

(d) *Transfers of surplus Government owned materials or products.* Transfers of surplus Government owned materials or products (1) may be made freely to the Government Disposal Agencies, and (2) may be made freely between and

within the War Department, Navy Department, Maritime Commission, War Shipping Administration, Veterans' Administration, and the Defense Plant Corporation, and from the Government disposal agencies to any of the above, unless a note in Column 4 of List A referring to this paragraph indicates otherwise.

(e) *Replacing material sold.* If a person sells material under this regulation to someone who gives him a priority rating or a CMP allotment symbol or number, the seller cannot use this rating or allotment to replace the material he has sold. The effect of this rating or symbol or number stops when the seller receives it.

(f) *Sales covered by this regulation.*

(1) This regulation applies only to "special sales" (as described in paragraph (b) (1)) and if the holder is regularly engaged in selling a material, a sale of it by him is not a special sale and he is governed by all orders and regulations of the War Production Board which apply to the material he is selling.

(2) Provisions in any orders or regulations which say that this regulation does not apply may be disregarded. To find the rules for making a special sale there is no need to refer to any orders or regulations other than Priorities Regulation 13.

(3) (i) The buyer may not violate any regulation or order controlling the quantity of material which he may buy or the amount of any product he may make or the use or disposition that he may make of any particular material. All the prohibitions in orders against the use of materials for particular purposes remain in effect.

(ii) Inventories. A person buying for use may receive any item of surplus materials or products if his total inventory of that item is or will by virtue of accepting such delivery be not in excess of his succeeding six months' requirements. If any applicable order or regulation permits a larger inventory than six months, nothing contained herein shall restrict receipts below that permitted by such order or regulation. This permits a person to exceed applicable inventory limits only if he acquires such excess under this regulation; however, he may not thereafter receive further deliveries from producers or distributors until his inventory is reduced to a practicable minimum working inventory. This sub-paragraph does not apply to receipts of capital equipment nor to persons buying for resale.

(iii) If any order or regulation provides that a buyer of material must make any report or furnish any information either to the War Production Board or to the seller, this regulation does not excuse him from these requirements.

(iv) If any holder of material knows that a person who wants to buy it will use it for a prohibited purpose or would have more of it than he is permitted to have, the sale cannot be made.

(g) *Records.* Any person making a sale under this regulation must keep sufficient records so that he can show

that the sale was permitted under this regulation.

(h) *Letters and questions.* Any letters or questions about this regulation should be sent either to the War Production Board in Washington, marked "Ref: P. R. 13", or to any of the field offices of the War Production Board.

(i) *Revisions of Lists A and B.* Lists A and B attached to this regulation will be revised from time to time. A person wishing to sell material under this regulation should be sure that he has the lists which are in effect at the time of the sale. Copies may be obtained from any field office of the War Production Board.

Issued this 15th day of March 1945.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

LIST A

Explanation of List A. Column (1) of List A lists the materials or products that are restricted under the regulation. This shows in some instances the class or group of ma-

terials and does not always list all the trade names and related materials.

Columns (2) and (3) each apply to a type of possible sale. Opposite each material or product in each column is shown the conditions under which a special sale of the particular material may be made to the person described in the heading of the column.

Column (2) refers to persons buying for uses permitted by War Production Board orders and regulations or for uses authorized by the War Production Board.

Column (3) refers to persons who are regularly engaged in distributing the material the holder has, like a dealer in chemicals or textiles. A dealer means any wholesaler or retailer whose regular business consists in whole or in part of the sale from stock or inventory of the particular materials or products either to industrial users or to other persons. It also includes persons who recondition or rebuild equipment and machinery for resale to industrial users. Such persons are not, however, relieved from compliance with any orders or regulations of the War Production Board which control the distribution of the material by them.

Column (4). The provisions in Column (4) applicable to the particular material or product must be followed.

If the list shows "No," it means that the holder cannot sell to the class of person mentioned in the column head without special permission of the War Production Board except when a note in Column (4) allows certain kinds of sales. Paragraph (c) (2) (iii) of the regulation tells how to get permission.

If the list shows "PR" followed by a letter and number, like "PR AA-5", it means that the holder can sell to anyone who has an AA-5 or higher priority rating which he has extended to the holder for the particular sale. This regulation does not in any way assign priority ratings.

If the list shows "W. O. P.", it means the holder can sell to the class of buyer listed at the head of the column without any priority rating or allocation or allotment being necessary.

If the list shows "X", it means that for the particular material or product the column in which it appears is not applicable.

List A is divided into five parts as follows:

Part I—Metals and Metallic Ores.

Part II—Chemicals.

Part III—Textile Fibers, Fabrics, Clothing, Leather and Related Products.

Part IV—Miscellaneous Materials and Products.

Part V—Machinery, Equipment and Components.

LIST A—CLASSES OF BUYERS TO WHOM SPECIAL SALES OF MATERIALS AND PRODUCTS MAY BE MADE IN ACCORDANCE WITH THIS LIST, SUBJECT TO PARAGRAPH (F) (3) OF THE REGULATION

This list refers only to new materials or products unless the word "used" is specifically mentioned. Materials or products not on this list may be sold in accordance with paragraph (c) (1). This list does not apply to special sales for export. These are covered by List B.

DIRECTION 1

SPOT AUTHORIZATIONS UNDER PRIORITIES
REGULATION NO. 25

(a) A holder may make a special sale of copper, copper base alloy, aluminum or steel in a form described as a controlled material in CMP Regulation 1, to a buyer who gives him an order bearing a CMP allotment symbol whose initial letter is "Z". The buyer need not charge material bought under this paragraph against any CMP allotment account. No special permission from the War Production Board is required to make such a sale to a buyer who has been authorized to use a CMP allotment symbol whose initial letter is "Z".

(b) A holder may also make a special sale of a noncontrolled material or product which, pursuant to Priorities Regulation 13, may be

sold to a user on a rating of AA-5, if the buyer furnishes an order bearing a CMP allotment symbol whose initial letter is "Z" which has been granted to him under Priorities Regulation 25.

(c) A production schedule authorized under Priorities Regulation 25 does not permit the person holding such a schedule to acquire materials or products which are limited under Priorities Regulation 13 to sales on ratings higher than AA-5 or which require special permission of the War Production Board. (Issued Aug. 30, 1944.)

DIRECTION 2

PUBLIC AUCTION OF CERTAIN CONTROLLED
MATERIALS

(a) Any person may apply for permission to disregard paragraph (c) (2) (v) of PR-13 in making special sales of controlled mate-

rials described in paragraph (d) below primarily to ultimate consumers at public auction.

(b) Application should be made by letter addressed to the WPB, Washington 25, D. C., Ref: PR-13. It should describe the materials, show that they are the kind covered by paragraph (d), tell how the public auctions are to be held, why the buyers will generally be ultimate consumers and state all other details of the proposed sales.

(c) If the WPB finds that the materials and method of sale are the kinds described in this direction, it may authorize the applicant to sell the materials in the way proposed without getting from any buyer the CMP allotment symbol or number or the certification required by paragraph (c) (2) (v) of PR-13. However, the WPB will not authorize the sale of the materials unless no

more than \$2,000 worth will be sold at any one time or place and no more than \$25,000 worth will be sold in any calendar month.

(d) This direction relates only to excess controlled materials which are primary building materials left over after a construction project has been finished and which are not suitable for sale in regular trade channels. (Issued Feb. 2, 1945.)

PART 4600—RUBBER, SYNTHETIC RUBBER, BALATA AND PRODUCTS THEREOF

[R-1, as Amended Nov. 9, 1944, Amdt. 4]

Rubber Order R-1, as amended November 9, 1944, is hereby further amended by changing Appendix II, List 24 entitled *Regulations for the manufacture of tires and tire casings (except airplane and bicycle tires)*; List 25 entitled, *Regulations for the manufacture of tire tubes (except airplane and bicycle tire tubes)*; and List 35¹ entitled, *Regulations for the use of carbon black in the manufacture of rubber or synthetic rubber products*, to read as follows:

LIST 24—REGULATIONS FOR THE MANUFACTURE OF TIRES AND TIRE CASINGS (EXCEPT AIRPLANE AND BICYCLE TIRES)

(a) *General provisions.* (1) The crude rubber content of any tire or tire casing governed by this List 24 shall not include processing losses or crude rubber used in curing bags.

(2) No crude rubber or latex shall be consumed in the cord treatment.

(3) On those sizes of natural rubber tires for which no "maximum content crude rubber" is designated, the compound grades shown under "compound designation" shall apply (the first letter designating the friction and the second letter designating the tread compound grade) and the composition of the compounds shall conform to the regulations set forth in List 22, Appendix II.

(4) The use of rayon in the manufacture of tires and tire casings governed by this List 24 shall conform to the regulations set forth in List 32, Appendix II.

(5) When the cord used in any tire is of a gauge less than .027 inch as measured by the current ASTM standard in effect, the "maximum content crude rubber" permitted, if based on cotton construction, shall be reduced by 6 per cent.

(6) Fewer plies of 2200 denier rayon cord may be used than specified for standard cord providing "ply rating" as defined by current Tire and Rim Association standards is not reduced. The same permitted "maximum content crude rubber" shall remain in effect.

(7) Only one grade of tire may be manufactured in any size, ply and type, and that grade must be consistent with maintaining a quality adequate for the service for which the tire is designed.

(8) Where "Mud-Snow" type tread is designated in this List 24, tires with either directional or non-directional (ND) tread designs may be manufactured.

(9) Single marked high pressure type tires or single marked balloon type tires may be substituted for dual marked type tires.

(10) S-7 synthetic construction may be substituted for S-5 synthetic construction wherever S-5 is designated in this List 24, subject, for Government orders, to the approval of the procuring agency. The "maximum content crude rubber" designated for S-5 shall also apply to S-7.

(b) *Manufacturing regulations.* (1) Pneumatic tires of any size, ply and tread type

may be manufactured provided that they conform to the regulations for S-3 synthetic construction tires in List 22, Appendix II.

(2) Solid tires (except bogie, idler and support rollers), including cured-on solid tires, 4" x 1½" up, may be manufactured: *Provided*, That: Crude rubber is consumed only as follows:

Hard rubber base type. Crude rubber shall be consumed only in cements and/or hard base and shall not exceed, by weight, ten per cent of the sum of the crude rubber, synthetic rubber and reclaimed rubber hydrocarbon contents.

Tie-gum base (soft base) type. Crude rubber shall be consumed only in cement and/or tie gum and shall not exceed, by weight,

eight per cent of the sum of the crude rubber, synthetic rubber and reclaimed rubber hydrocarbon contents. Individual sizes may exceed the eight per cent maximum: *Provided*, That the average crude rubber content of all sizes does not exceed the eight per cent maximum.

(3) The manufacture of tires and tire casings consuming more crude rubber than permitted by paragraphs (b) (1) and (b) (2) of this List 24 shall be limited to the sizes, plies and tread types listed in Table A below for Truck and Bus Tires, in Table B for Special Purpose Tires, and in Table C for Bogie, Idler and Support Rollers. Compound grades and maximum content of crude rubber in pounds shall be as specified in Tables A, B and C.

(c) *Branding of tires.* (1) All synthetic rubber tires or tire casings manufactured to fill either Civilian or Government orders shall have a colored dot, either circular or rectangular (with or without rounded corners or ends) and with an average effective dimension of at least one inch, vulcanized on both sides of the tire, the appropriate color to be determined from paragraph (c) (2) of said List 22. In addition, all synthetic rubber pneumatic tires or tire casings shall bear, on both sides of the tire and in characters at least five-eighths inch high, a brand showing the appropriate synthetic construction identification. The colored dot and the brand shall be permanent and may be superimposed if desired. The colored dot and synthetic construction identification may be smaller than the designated minimum on sizes of tires for which the designated minimum is unreasonably large.

(d) *Definitions.* (1) Where used in this List 24, "Standard Highway" as applied to tread type, means regular skid-depth, "100" level, on-the-road type and "Mud-snow", as applied to tread type, means extra-traction, on-and-off-the-road type.

LIST 25—REGULATIONS FOR THE MANUFACTURE OF TIRE TUBES (EXCEPT AIRPLANE AND BICYCLE TUBES)

(a) *General provisions.* The crude rubber content of any tube governed by this List 25 shall not include processing losses or crude rubber used in valves.

(b) *Manufacturing regulations.* (1) Tubes of any size and type may be manufactured to fill both Government and civilian orders (subject, for Government orders, to the approval of the procuring agency):

Provided, That:

(i) Crude rubber and latex may be consumed only in valves (where permitted in List 33), valve adhesion pads, splicing gum strips and cements, and identification inks and cements.

(iii) In the manufacture of farm tractor and implement tires above 20" rim diameter not more than 34.5 pounds of carbon black per 100 pounds of total rubber hydrocarbon may be consumed. Of the total black consumed in each size tire no more than 30 per cent of the total may be channel type carbon black.

(iv) In the manufacture of all S-3 truck tires for both Government and civilian orders, other than that size and type listed in paragraph (1) (ii), each manufacturer shall consume not more than 80 per cent as much total carbon black, per tire, as was consumed in the same size tire on January 12, 1945. Of the total carbon black consumed in each size tire, no more than 40 per cent of the total may be channel type carbon black.

(v) In the manufacture of the following sizes and types of truck tires for both Government and civilian orders, each tire manufacturer shall consume not more than 90 per cent as much total carbon black, per tire, as was consumed in the same size tire on January 12, 1945.

Size:	Construction
7.00 and 7.50, all rim diameters.	S-4, S-6 and S-8
9.00-16 8-ply-----	S-8

size tire, tire tube or tire flap on January 12, 1945.

Individual sizes may exceed the indicated maximum percentage provided that the average total carbon black content of all sizes of the same type of tire, tire tube or tire flap does not exceed the indicated maximum percentage.

Bogie, Idler and Support Rollers for combat vehicles and combat tires shall be excepted from the above carbon black restrictions.

(2) The use of carbon black in the manufacture of any tire and tube repair materials or any retreading materials (as listed in Lists 23 and 30 of this Appendix II), shall conform to the following:

(i) In the manufacture of any grade of camelback, capping stock, lug stock and base stock for both Government and civilian orders each manufacturer shall consume not more than 90 percent as much total carbon black per pound of camelback capping stock, lug stock and base stock as was consumed in the same grade of said products on January 12, 1945.

(ii) Of the total carbon black consumed in each grade of camelback, capping stock, lug stock or base stock, no more than 80 per cent of the total may be channel type carbon black.

(3) Use of carbon black in the manufacture of any belting, hose, packing, molded, lathe cut and extruded items and other mechanicals (as listed in Rubber Order R-1, Appendix I) shall conform to the following:

(i) No carbon black shall be used in the manufacture of any article listed below in this paragraph, items A to E inclusive, except that two percent of carbon black based on the weight of the compound may be used in cases where the compound contains no reclaim or scrap rubber.

A. Any item not listed in Appendix I.

B. The following hose items:

Garden hose.

Heater hose, except for military vehicles.

Radiator hose for passenger cars and trucks under one and one-half tons, except for military vehicles.

PART 1394—RATIONING OF FUEL AND FUEL PRODUCTS

[Rev. RO 11, 1 Amdt. 50]

FUEL OIL

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.

Revised Ration Order 11 is amended in the following respects:

1. Section 1394.5654 (c) is amended by adding after the period at the end of the paragraph the following sentence: "However, if the dealer or primary supplier has detached coupons from the coupon sheet for which he has failed to transfer, in exchange, an amount of fuel oil equal to the gallonage value of such coupons, he must comply with § 1394.5805."

2. Section 1394.5654 (e) is amended to read as follows:

(e) Any dealer or primary supplier who violates any of the provisions of this section may, by order issued pursuant to paragraph (f) of this section or Revised Procedural Regulation No. 4, be prohibited from accepting any or all coupon sheets for deposit for such period as may be specified in such order and be directed to return any or all coupon sheets deposited with him to the consumers entitled to them except coupon sheets from which coupons have been improperly detached, as to which the order must contain the directions in § 1394.5805 (a) (1), (2) and (3).

3. The text of § 1394.5654 (f) (3) is amended to read as follows:

(3) If the respondent admits the charges or fails to appear at the hearing, or if, after the hearing, the special hearing officer finds that the respondent has violated any provisions of this section specified in the notice of hearing given under subparagraph (1) of this paragraph, he may issue an order as specified in paragraph (e). If the special hearing officer finds that the violation charged in the notice of hearing has not been committed by the respondent, he shall issue an order dismissing the proceeding.

4. Section 1394.5654 (f) (3) (iii) is amended to read as follows:

(iii) The order shall be effective five (5) days after personal service, or if served by mail, eight (8) days after the date of mailing.

5. The text of § 1394.5804 (a) is amended by substituting for the word "may" the phrase "may prior to March 15, 1945."

6. Section 1394.5804 (d) is added as follows:

(d) Any application, pursuant to this section which is pending on March 15, 1945, shall be deemed to be an application for an order pursuant to § 1394.5805.

7. Section 1394.5805 is added as follows:

§ 1394.5805 *Restoring to consumers coupons improperly detached by a dealer or primary supplier (called respondent) from deposited coupon sheets—(a) Where there is a suspension order or court order.* Where a dealer or primary supplier (for the purpose of this section called the respondent) has failed to transfer to a consumer fuel oil equal in gallonage value to the coupons which he had detached from the consumer's coupon sheet on deposit with the respondent and a suspension order, under Revised Procedural Regulation No. 4, or a court order, decree, injunction or judgment, has been issued against the respondent because of his violation of Revised Ration Order 11 (or Ration Order No. 11), the OPA District Director serving the area in which the registered place of business of the respondent is located, on application by the respondent or on the District Director's own motion, may issue an order containing one or more of the following provisions:

(1) Directing the respondent to file with the District Director, by a date specified by the District Director (or by the Hearing Commissioner or special hearing officer), a statement certified by him to be true and complete, giving as to each consumer from whose coupon sheet he had detached coupons and to whom he had failed by that date to transfer, in exchange, an amount of fuel oil equal to the gallonage value of such coupons and as to each of the coupon sheets of such consumer, the following information:

(i) The name and address of each such consumer;

(ii) The class of the coupon sheet and the number and address of the Board issuing it; the period for which the coupon sheet was issued and the total gallonage value of the coupons attached to the coupon sheet when it was issued by the board, as that information appears on the coupon sheet stub;

(iii) The total gallonage value of the coupons not yet detached from the coupon sheet at the time it was deposited with respondent;

(iv) The total gallonage value of the coupons not yet detached from the coupon sheet, on the date of the statement;

(v) The total number of gallons of fuel oil transferred by the respondent to the consumer pursuant to the ration represented by the coupon sheet, from the time of its deposit with respondent to the date of the statement; and

(vi) The amount by which the total gallonage value of the coupons detached from the coupon sheet by the respondent exceeds the gallonage value of fuel oil transferred in exchange for such coupons by the date of the statement.

(2) Directing the respondent to surrender with the statement prescribed by paragraph (a) (1) valid ration evidences equal in gallonage value to the total of the amounts by which the gallonage value of the coupons detached by him from each consumer's coupon sheet exceeds the gallonage value of the fuel oil he transferred to that consumer by the date of the statement in exchange for those coupons; and

(3) Directing the respondent to surrender with the statement the coupon sheets referred to in paragraph (a) (1) of this section separated into two groups: (i) those containing currently valid coupons and (ii) those containing no coupons or no currently valid coupons.

(b) *Where dealer or supplier voluntarily surrenders or where consumer demands return of coupon sheet.* (1) Where a dealer or primary supplier (also called the respondent for the purpose of this section) has failed to transfer to a consumer fuel oil equal in gallonage value to the coupons which he had detached from the consumer's coupon sheet on deposit with the respondent (and no special hearing officer's order or other order specified in paragraph (a) of this section has issued against the respondent) and the respondent wishes to surrender the coupon sheet or the consumer requests its return, the respondent must, instead of surrendering it to the consumer, surrender the coupon sheet to the District Director. If the consumer has requested its return, the surrender to the District Director must be made within 48 hours after the request.

(2) The respondent must accompany the coupon sheet with:

(i) A statement certified by him to be true and complete, giving as to that coupon sheet the information specified in subdivisions (i) through (vi) of paragraph (a) (1) of this section; and

(ii) Valid ration evidences equal in gallonage value to the amount by which the gallonage value of the coupons detached by him from that coupon sheet exceeds the gallonage value of the fuel oil he transferred to that consumer in exchange for those coupons.

(c) *Disposition of surrendered coupon sheets.* (1) Coupon sheets (surrendered pursuant to paragraph (a) (3) or (b) of this section or a similar direction in an order of a special hearing officer or a suspension order) containing any currently valid coupons shall promptly be returned by the District Director to the consumer who deposited them. The District Director shall direct the consumer's Board to issue to the consumer a coupon sheet containing coupons equal in gallonage value to the amount by which the gallonage value of the coupons detached by the respondent exceeds the gallonage value of the fuel oil he transferred to the consumer in exchange for those coupons.

(2) As to coupon sheets (surrendered pursuant to paragraph (a) (3) or (b) or a similar direction in an order of a special hearing officer or a suspension order) containing no coupons or no currently valid coupons, the District Director shall, instead of returning the coupon sheet to the consumer, direct the consumer's

board to issue to the consumer a coupon sheet containing coupons equal in gallonage value to the sum of the gallonage value of the coupons, if any, still attached to the sheet, plus the amount by which the total gallonage value of coupons detached by the respondent exceeds the gallonage value of the fuel oil he transferred to the consumer in exchange for those coupons.

(3) In any case where the District Director cannot determine the amount for which a coupon sheet should be issued to a consumer from whose coupon sheet coupons were improperly detached by the respondent, the District Director shall, instead of returning the coupon sheet to the consumer, notify the consumer's board to compute a ration for him in the same manner as if he were a new applicant (without deducting fuel oil on hand) and to issue him a coupon sheet containing coupons for that amount.

(d) No order issued, and no surrender of a coupon sheet, pursuant to this section shall operate as a waiver of any violation of Revised Ration Order 11.

Maximum prices set forth in Column 2 also include the amount of United States excise taxes at rates in effect on November 2, 1942.

9. Section 2.3 (h) of Article II is revoked and a new section 2.3 (h) is substituted therefor to read as follows:

(h) Sales of bulk domestic brandy. The maximum price for any sale of bulk domestic brandy, for which no maximum price is set forth in section 2.3 (c) (3), (c) (4), (c) (5), or (c) (6), shall be determined by application to the Office of Price Administration, Beverage Section, Washington, D. C., pursuant to section 2.2 (c).

10. Section 3.2 (a) (4) of Article III is revoked and a new section 3.2 (a) (4) is substituted therefor to read as follows:

(4) For domestic cordials and liqueurs only, the processor may elect to establish a prescribed uniform maximum price determined as provided in Appendix I; or

11. Section 3.2 (a) (5) of Article III is added to read as follows:

(5) For domestic brandy only, the processor may elect to establish a prescribed uniform maximum price determined as provided in Appendix J; or

12. Section 3.2 (a) (6) of Article III is added to read as follows:

(6) For all classifications of domestic distilled spirits (except where a maximum price can be established under Appendix A or where the processor elects or is required to establish a prescribed uniform maximum price under Appendices E, H, I or J), the special maximum price by authorization determined as provided in Appendix F.

13. Section 3.2 (b) (2) of Article III is amended by adding the words "domestic cordials and liqueurs" following the words "domestic brandy."

14. Section 3.2 (b) (3) of Article III is revoked and a new section 3.2 (b) (3) is substituted therefor to read as follows:

(3) For items of domestic brandy and domestic whiskey only (except items containing malt whiskey), where there is a change in formula (other than proof), the converted March 1942 maximum price determined as provided in Appendix D. For all other items of domestic distilled spirits, where there is a change in formula (other than proof), the special maximum price by authorization determined as provided in Appendix F.

15. Section 3.2 (b) (6) of Article III, to, but not including, the note is revoked. The note is transferred to follow section 3.2 (b) (8), and a new section 3.2 (b) (6) is substituted to read as follows:

(6) For domestic cordials and liqueurs only, the processor may elect to establish a prescribed uniform maximum price determined as provided in Appendix I.

16. Section 3.2 (b) (7) of Article III is added to read as follows:

(7) For domestic brandy only, the processor may elect to establish a prescribed uniform maximum price determined as provided in Appendix J.

17. Section 3.2 (b) (8) of Article III is added to read as follows:

(8) For all classifications of domestic distilled spirits (except where a maximum price can be established under Appendices B through D, inclusive, or where the processor elects or is required to establish a prescribed uniform maximum price under Appendices E, H, I or J), the special maximum price by authorization determined as provided in Appendix F.

18. Section 3.2 (c) (3) of Article III is revoked and a new section 3.2 (c) (3) is substituted therefor to read as follows:

(3) For domestic cordials and liqueurs only, the prescribed uniform maximum prices determined as provided in Appendix I.

19. Section 3.2 (c) (4) of Article III is added to read as follows:

(4) For domestic brandy only, the prescribed uniform maximum prices determined as provided in Appendix J.

20. Section 3.2 (c) (5) of Article III is added to read as follows:

(5) For all classifications of domestic distilled spirits (except for sales of domestic whiskey, for which maximum prices can be established under Appendix E; domestic gin and domestic vodka, for which maximum prices can be established under Appendix H; domestic cordials and liqueurs, for which maximum prices can be established under Appendix I; and domestic brandy, for which maximum prices can be established under Appendix J), the special maximum price by authorization determined as provided in Appendix F.

21. Section 3.3 (a) (1) of Article III is amended to read as follows:

(1) Article III provides several pricing methods for processors' sales of items of packaged domestic distilled spirits. Those pricing methods are set forth in detail in Appendices A through J and specific rules are provided therein for each pricing method. One of those methods requires processors of items of domestic whiskey of a brand name not sold or offered for sale by the processor during March 1942 to establish a prescribed uniform maximum price for the item. That method, set forth in Appendix E, applies only to items of domestic whiskey. Another method, which applies only to items of domestic gin and domestic vodka, requires processors of these commodities of a brand name not sold or offered for sale by the processor during March 1942 to establish a prescribed uniform maximum price for the item under Appendix H.

Additional methods, following the same basic pricing technique found in Appendices E and H, may also be found in Appendices I and J, which apply only to items of domestic cordials and liqueurs and items of domestic brandy, respectively. Processors of items, for which no prescribed uniform maximum prices have been provided, of a brand name not sold or offered for sale during March 1942, must establish special maximum prices by authorization in accordance with the provisions of Appendix F.

22. Section 3.3 (a) (2) of Article III is amended to read as follows:

(2) Processors of items of a brand name, container size, proof and formula, which they sold or offered for sale during March 1942, are required to establish March 1942 maximum prices under Appendix A for sales to customers of a particular class to which the item was sold or offered for sale by the processor during March 1942. Where the sale is to a customer of a different class, the processor must establish a special maximum price by authorization under Appendix F. However, for items of domestic whiskey, the processor may elect to establish prescribed uniform maximum prices under Appendix E; for items of domestic gin

and domestic vodka, the processor may elect to establish prescribed uniform maximum prices under Appendix H; for items of domestic cordials and liqueurs, the processor may elect to establish prescribed uniform maximum prices under Appendix I; and for items of domestic brandy, the processor may elect to establish prescribed uniform maximum prices under Appendix J. Where the processor elects to establish a prescribed uniform maximum price for any item of domestic whiskey, domestic gin, domestic vodka, or domestic grape brandy, he must, after making a sale at such price, establish prescribed uniform maximum prices for all sales thereafter to any purchaser of any item of the same classification bearing the same brand name.

23. Section 3.3 (a) (4) of Article III is amended by inserting the words "domestic vodka, domestic cordials and liqueurs" following the words "domestic gin" which appear in said paragraph.

24. Section 3.3 (a) (5) of Article III is amended by inserting the words "or domestic brandy" following the words "domestic whiskey" which appear in said paragraph.

25. Section 3.3 (c) (1) (iii) of Article III is amended to read as follows:

(iii) Where a processor establishes a prescribed uniform maximum price under Appendices E, H, I or J, his customers for sales of the item are to be classified only as wholesalers, monopoly states, primary distributing agents, retailers, and consumers.

26. Section 3.3 (g) of Article III is revoked and a new section 3.3 (g) is substituted therefor to read as follows:

(g) *Prior regulations, orders and interpretations superseded.* Except as otherwise provided in this regulation and in Supplementary Order No. 40, Article III supersedes all other maximum price regulations, orders and interpretations issued by the Office of Price Administration,

(1) Prior to January 6, 1944, with respect to processors' sales of packaged distilled spirits;

(2) Prior to August 1, 1944, with respect to processors' sales of packaged domestic gin and vodka; and

(3) Prior to March 20, 1945, with respect to processors' sales of packaged domestic cordials, liqueurs and brandy, including (but not limited to) the applicable provisions of the following:

(1) Maximum Price Regulation 193;

(2) Order Nos. 1 through 5 inclusive, under Maximum Price Regulation 193; and

(3) Orders issued under Appendix F to Article III of Maximum Price Regulation 445, establishing special maximum prices by authorization for processors' sales of cordials, liqueurs and brandy:

Provided, That such maximum price regulations, orders and interpretations shall remain in force with respect to a particular sale of packaged domestic distilled spirits, gin, vodka, cordials, liqueurs and brandy, until provisions of this article become applicable thereto pursuant to section 3.7.

27. Section 3.7 of Article III is revoked and a new section 3.7 is substituted therefor to read as follows:

SEC. 3.7 Dates on which this article shall apply. This article shall apply to all sales, offers to sell and deliveries:

(a) On and after January 6, 1944, with respect to processors' sales of packaged distilled spirits;

(b) On and after August 1, 1944, with respect to processors' sales of packaged domestic gin and vodka; and

(c) On and after March 20, 1945, with respect to processors' sales of packaged domestic cordials, liqueurs and brandy,

Provided, That with respect to sales, offers to sell and deliveries of any item for which the processor is required or permitted to establish a special maximum price by authorization under Appendix F, and such application is properly filed under that appendix on or before April 20, 1945, and the applicant had a lawful maximum price for the item or sale in effect prior to March 20, 1945, he may continue to sell, offer to sell or deliver the item at the latter price until the date on which the application is acted upon, or until June 20, 1945, whichever is earlier:

And provided further, That with respect to sales for which prior to March 20, 1945 a seller has posted prices, with a state or other public authority in compliance with a statute, ordinance or regulation, if

(a) The posted price is not in excess of the seller's maximum price under Office of Price Administration regulations in effect on the date of posting, and

(b) The seller cannot observe the new maximum price without being subject to a penalty for non-observance of the posted price,

then the new maximum price shall not apply until the first effective date for prices similarly posted or listed at the seller's first regular opportunity following the date on which the new price, but for this provision, would be his maximum price. In the interval, the appropriate provisions of the Office of Price Administration regulations in effect at the date of posting, shall continue to apply to such sales.

For purposes of this section, the term "posted" includes "listed" and in determining whether a seller is "subject to a penalty," defenses conferred by section 205 (d) of the Emergency Price Control Act of 1942, as amended, shall not be considered.

NOTE: In the following appendices, the examples are offered for purposes of illustration only. The examples are not to be regarded as a substantive part of this regulation. They neither enlarge nor restrict the definitive provisions. The examples do not reflect the applicable amount of the increase effective April 1, 1944 in United States excise taxes.

28. Paragraph (a) (3) of Appendix A to Article III is revoked and a new paragraph (a) (3) is substituted therefor to read as follows:

(3) A March 1942 maximum price established under this appendix is inapplicable to sales of any item of domestic whiskey,

gin, vodka, and grape brandy bearing the same brand name as a corresponding item for which the processor has established a prescribed uniform maximum price under the applicable appendix to Article III.

29. A new paragraph (a) (4) is added to Appendix A to Article III; and an example of the operation of said paragraph is set forth at the side thereof, all to read as follows:

(4) A March 1942 maximum price established under this appendix is inapplicable to sales of a particular item of domestic cordials and liqueurs and domestic fruit brandy, bearing the same brand name as that item for which the processor has established a prescribed uniform maximum price under the applicable appendix to Article III.

Example: If "X" brand Peach Flavored Brandy, 60° proof, in fifths, has been sold under the prescribed uniform maximum price for the item in Appendix I, then "X" brand Peach Flavored Brandy, of any proof and container size, must be priced under Appendix I. However, "X" brand Apricot Flavored Brandy may still be priced under Appendix A if the item was sold or offered for sale during March 1942.

30. Paragraph (a) (3) of Appendix B to Article III is amended by adding the following sentence: "For sales of the item converted for change of container size to customers of another class, a special maximum price by authorization must be established under Appendix F."

31. Paragraph (a) (5) of Appendix B to Article III is amended to read as follows:

(5) The converted March 1942 maximum price established under this appendix is inapplicable to sales of any item of domestic whiskey, gin, vodka, and grape brandy bearing the same brand name as a corresponding item for which the processor has established a prescribed uniform maximum price under the applicable appendix to Article III.

32. A new paragraph (a) (6) is added to Appendix B to Article III; and an example of the operation of said paragraph is set forth at the side thereof, all to read as follows:

(6) The converted March 1942 maximum price established under this appendix is inapplicable to sales of a particular item of domestic cordials and liqueurs and domestic fruit brandy, bearing the same brand name as that item for which the processor has established a prescribed uniform maximum price under the applicable appendix to Article III.

Example: If for "W" brand Plum Brandy, in fifths, a prescribed uniform maximum price has been established under Appendix J, a converted March 1942 price for "W" brand Plum Brandy in pints may not be established under this Appendix, although a converted March 1942 price for "W" brand Pear Brandy in pints may be established under this Appendix if "W" brand Pear Brandy in fifths was sold or offered for sale during March 1942.

33. Paragraph (a) (1) of Appendix C to Article III is amended by inserting the words "domestic vodka, domestic cordials and liqueurs" following the words "domestic gin" which appear in said paragraph, and the example appearing at the side thereof is deleted.

34. Paragraph (a) (2) of Appendix C to Article III is redesignated paragraph (a) (7) of Appendix C and a new paragraph (a) (2) is substituted therefor to read as follows:

(2) With respect to items of domestic brandy only, a change in proof which involves a change in the classification of the item from rectified brandy to unrectified brandy or from unrectified brandy to rectified brandy shall be deemed a change in formula and the conversion methods provided in Appendix D shall apply.

35. Paragraph (a) (4) of Appendix C to Article III is amended by adding the following sentence: "For sales of the item converted for change of proof to customers of another class, a special maximum price by authorization must be established under Appendix F."

36. Paragraph (a) (5) of Appendix C to Article III is amended to read as follows:

(5) The converted March 1942 maximum price established under this appendix is inapplicable to sales of any item of domestic whiskey, grape brandy, gin and vodka, bearing the same brand name as a corresponding item for which the processor has established a prescribed uniform maximum price under one of the applicable appendices to Article III.

37. A new paragraph (a) (6) is added to Appendix C to Article III; and an example of the operation of said paragraph is set forth at the side thereof, all to read as follows:

(6) The converted March 1942 maximum price established under this appendix is inapplicable to sales of a particular item of domestic cordials and liqueurs and domestic fruit brandy, bearing the same brand name as that item for which the processor has established a prescribed uniform maximum price under one of the applicable appendices to Article III.

Example: If for "L" brand Triple Sec at 90° proof a prescribed uniform maximum price has been established under Appendix I, a converted March 1942 price for "L" brand Triple Sec at 80° proof may not be established under this appendix. However, a converted March 1942 price for "L" brand Curacao at 80° proof may be established under this Appendix if "L" brand Curacao at, for example, 85° proof, was sold during March 1942.

38. The first sentence of paragraph (a) (1) of Appendix D to Article III is revoked and the following is substituted therefor:

(1) The conversions provided in this Appendix are applicable only to items of domestic whiskey (except items containing malt whiskey) and domestic brandy which were distilled on or subsequent to December 5, 1933 and are eight years of age or less. No conversion for change of formula (other than proof) may be made for items of domestic whiskey or domestic brandy which were distilled prior to December 5, 1933. Processors of items of domestic whiskey or domestic brandy distilled on or subsequent to December 5, 1933 and over eight years of age who desire to make a change of formula (other than proof) shall establish a special maximum price therefor by authorization under Appendix F.

39. Paragraph (a) (2) of Appendix D to Article III is amended by adding the following sentences: "The converted March 1942 maximum price established under this appendix is inapplicable to sales of any item of domestic grape

brandy bearing the same brand name as an item of grape brandy for which the processor has established a prescribed uniform maximum price provided in Appendix J. Similarly, the converted March 1942 maximum price established under this appendix is inapplicable to a particular item of fruit brandy, bearing the same brand name as that item for which the processor has established a prescribed uniform maximum price."

40. The last sentence of paragraph (a) (5) of Appendix D to Article III is revoked and the following sentence substituted therefor: "Where he desires to sell items of both formulae each such item must be priced under either Appendix J or Appendix E (as the case may be) by establishing prescribed uniform maximum prices, and all other items of domestic brandy or domestic whiskey bearing the same brand name must also be priced under Appendix J or Appendix E, respectively."

41. Paragraph (a) (6) of Appendix D to Article III is revoked and a new paragraph (a) (6) is substituted therefor to read as follows:

(6) In computing whiskey and brandy costs under the methods provided in this appendix, the age used for the computation shall be the age shown on the labels. For whiskey blends, where the respective ages are not separately stated on the labels, the age used for computation shall be the age of the youngest whiskey in the blend as stated on the labels. Domestic whiskey or domestic brandy "Bottled in Bond" shall be deemed to be four years of age, where no age statement appears on the labels.

Converted March 1942 maximum prices under Appendix D are not permitted or required with respect to items of straight and blended brandy where the age of the brandy is not stated on the labels. However, this prohibition is not applicable to items of straight brandy, whose labels have no age statement, but do bear the legend "Bottled in Bond."

42. Paragraph (a) (7) of Appendix D to Article III is added to read as follows:

(7) For items of domestic brandy only, a change in proof which involves a change of the item from rectified to unrectified brandy or from unrectified to rectified brandy shall be deemed a change in formula and the conversion methods provided in this appendix shall apply.

43. Paragraph (b) of Appendix D to Article III is amended by inserting the words "or domestic whiskey" following the words "domestic whiskey" which appear in said paragraph.

44. Paragraph (d) of Appendix D to Article III is amended by adding the following head-note: "For domestic whiskey only."

45. Paragraph (f) of Appendix D to Article III is revoked and a new paragraph (f) is substituted therefor to read as follows:

(f) For domestic grape brandy only:

(1) Only the following changes shall constitute a change in formula under this paragraph:

(i) A change in the age statement of either unrectified or rectified brandy.

(ii) A change from rectified to unrectified brandy or from unrectified to rectified brandy.

(2) Converted March 1942 maximum prices for change in the age statement.

(i) Change in age statement of unrectified brandy. Where a processor has established

a March 1942 maximum price for an item of unrectified brandy of a particular brand name, proof and container size and subsequent to March 1942 has altered the age statement on the label, he must establish a converted March 1942 maximum price if the age has been reduced, and he may establish a converted March 1942 maximum price if the age has been increased. The converted March 1942 maximum price for such a change of age statement shall be computed as follows:

(a) Determine from Table II (of this appendix) for the appropriate proof and container size of the item to be priced:

(1) The cost of the brandy at the age stated on the label of the March 1942 item; and

(2) The cost of the brandy at the age stated on the label of the item to be priced.

(b) Determine the difference between (1) and (2);

(c) Add the difference to the March 1942 maximum price if the age has been increased or subtract the difference if the age has been decreased.

(ii) Change in age statement of rectified brandy.

(a) Where the processor has established a March 1942 maximum price for an item of rectified brandy of a particular brand name, proof and container size and subsequent to March 1942 has altered the age statement on the label from two years or more to less than two years, the March 1942 maximum prices must be reduced by the following differentials adjusted to the appropriate proof:

Case containing:	100° proof
3 Wine Gallons.....	\$1.46
2.4 Wine Gallons.....	1.16

(b) Where the conversion is from a minimum age statement of less than two years to two years or more, the March 1942 maximum prices may be increased by the above differentials adjusted to the appropriate proof.

(c) No conversions for a change in age statement may be made except in the instances and in the manner set forth in paragraphs (a) and (b) above.

(3) Converted March 1942 maximum prices for change from unrectified to rectified brandy or from rectified to unrectified brandy.

(i) Where the processor has established a March 1942 maximum price for unrectified brandy and desires to establish a converted March 1942 maximum price for rectified brandy, or where the processor has established a March 1942 maximum price for rectified brandy and desires to establish a converted March 1942 maximum price for unrectified brandy, he shall add or subtract (as the case may be) the applicable rectification tax.

46. Paragraph (g) of Appendix D to Article III is added to read as follows:

(g) For domestic fruit brandy (other than grape brandy) only: (1) A change in formula under this paragraph shall be limited to a change in the age statement of an item of unrectified fruit brandy, other than grape brandy.

(2) Converted March 1942 maximum prices for change in age statement of unrectified brandy. Where a processor has established a March 1942 maximum price for an item of unrectified brandy of a particular brand name, proof and container size and subsequent to March 1942 has altered the age statement on the label, he must establish a converted March 1942 maximum price if the age has been reduced, and he may establish a converted March 1942 maximum price if the age has been increased. The converted March 1942 maximum price for such a change of age statement shall be computed as follows:

TABLE III—FRUIT BRANDY COSTS TO BE USED IN CONVERTING MARCH 1942 MAXIMUM PRICES OF FRUIT BRANDY FOR A CHANGE IN AGE STATEMENT

Age (months)	From incl.—	To incl.—	Brandy cost at 100° proof			
			Apple brandy		Apricot, pear, peach, plum brandy

*P. A.—Proof adjustment (adjustment per degree of proof).

NOTE: The prices in this table include Federal excise and rectification taxes at rates in effect November 2, 1942. These prices do not include any State or local taxes. See paragraph (d) for computation of increase effective April 1, 1944, in United States excise taxes.

52. Paragraphs (a) (1), (a) (2), and (a) (3) of Appendix G to Article III are amended by deleting the words "F inclusive, or Appendix H" in each such paragraph and substituting therefor "J, inclusive."

53. Appendix I to Article III is added to read as follows:

(a) Rules for establishing maximum prices under Appendix I. (1) The prescribed uniform maximum prices provided in this ap-

pendix are applicable only to items of domestic cordials and liqueurs included in the "OPA Classifications" set forth in this appendix. All other items of domestic liqueurs, cordials and specialties must be priced under other applicable provisions of Article III.

(2) All items of domestic cordials and liqueurs of a brand name not sold or offered for sale by the processor during March 1942 must be priced under this appendix. Any item of domestic cordial or liqueur whether or not sold or offered for sale by the proc-

essor during March 1942 may be priced under this appendix. However, after once making a sale of an item of domestic cordial or liqueur at a prescribed uniform maximum price provided in this appendix, maximum prices for all sales thereafter of that item bearing the same brand name, of any proof or in any container size must be established under this appendix.

(3) For all items of domestic cordials and liqueurs not sold or offered for sale by a processor during March 1942 and not in-

cluded in the "OPA Classifications" of this appendix, the processor shall establish a special maximum price by authorization in accordance with the provisions of Appendix F.

(4) Any change whatsoever in the brand name of an item of domestic cordial or liqueur included in the "OPA Classifications" of this appendix, sold or offered for sale by the processor during March 1942, shall be deemed to be a new brand name and the item so changed must be priced under this appendix. Where such item is not included in the "OPA Classifications," then the processor shall establish a special maximum price by authorization for the item so changed, in accordance with the provisions of Appendix F.

(5) Where a processor establishes a prescribed uniform maximum price under this appendix, his customers for sales of the item are to be classified only as wholesalers, monopoly states, primary distributing agents, retailers and consumers. For all other classes of customers, a special maximum price by authorization shall be established by application under Appendix F.

(b) *Procedures for establishing prescribed uniform maximum prices.* The processor's maximum price per case, for sales of an item of packaged domestic cordial or liqueur included in the "OPA Classifications" of this appendix, to customers of the classes specified below, shall be the prescribed uniform maximum prices determined as follows:

(1) *Processors' sales to wholesalers and monopoly States.* (i) The processor's maximum price per case for an item of domestic cordial or liqueur included in the "OPA Classifications" set forth in this appendix for his sales to wholesalers and monopoly States, shall be the applicable prescribed uniform maximum price set forth in Table II of this appendix.

NOTE: The prices shown in Table II are at the proofs stated therein. They are completed prices for the items, in the container sizes and at the proofs stated, except for applicable State and local excise taxes and the increase effective April 1, 1944 in Federal excise taxes.

(ii) Where the proof of the item to be priced differs from that shown in Table II of this appendix, the prescribed uniform maximum base price is the price shown in Table II plus or minus, as the case may be, the figure obtained by multiplying the appropriate proof adjustment factor shown in Table II by the difference between the degrees of proof of the item being priced and of the item shown in the table.

(iii) Where the item to be priced is a domestic crystallized cordial or liqueur, the prescribed uniform maximum price for such item shall be the prescribed uniform maximum price for the particular "OPA Classification," proof and container size as determined in Table II of this appendix plus \$1.50 per case containing 3 wine gallons or \$1.20 per case containing 2.4 wine gallons.

(iv) Where State or local excise taxes apply, add to the figure obtained in (i), (ii) or (iii), the applicable amount of any State or local excise tax in effect on November 2, 1942; *Provided*, That the amount of such tax imposed is actually paid or has accrued and become payable by the processor to the proper taxing authority or to any prior vendor; *And, provided further*, That the amount of such tax once so added shall not again be added to the maximum prices established under subdivisions (ii), (iii) and (iv) of this paragraph (b).

The resulting figure in (i), (ii), (iii) or (iv), as the case may be, is the processor's prescribed uniform maximum price, f. o. b. bottling plant, for sales to wholesalers and monopoly states of an item of packaged domestic cordial or liqueur.

NOTE: The maximum prices so figured include applicable Federal, State or local excise taxes through November 2, 1942. The in-

crease effective April 1, 1944 in Federal excise taxes, or new or increased State or local excise taxes not otherwise included in the prescribed uniform maximum price, may be added to that price in accordance with section 7.3.

(2) *Processors' sales to primary distributing agents.* The processor's maximum price per case for an item of domestic cordial or liqueur included in the "OPA Classifications" set forth in this appendix, for sales to primary distributing agents, f. o. b. bottling plant, shall be the processor's prescribed uniform maximum price for sales of the item to wholesalers and monopoly states (determined as provided in subparagraph (1) above), subject to any discount, allowance or price differential agreed upon by the particular processor and primary distributing agent.

NOTE: The maximum prices so figured include applicable Federal, State or local excise taxes through November 2, 1942. The increase effective April 1, 1944 in Federal excise taxes, or new or increased State or local excise taxes not otherwise included in the prescribed uniform maximum price may be added to that price in accordance with section 7.3.

(3) *Processors' sales to retailers—(i) Sales of items shipped directly to the retailer's premises from the bottling plant.* The processor's prescribed uniform maximum price, per case, for sales to retailers, for an item of domestic cordial or liqueur included in the "OPA Classifications" set forth in this appendix, shipped directly to the retailer's premises from the bottling plant shall be figured by the processor as follows:

(a) Determine the prescribed uniform maximum price per case, f. o. b. bottling plant, in accordance with subparagraph (1) above, for his sales of the item to wholesalers and monopoly states (excluding, however, the increase effective April 1, 1944, in Federal excise taxes or new or increased State or local excise taxes effective after November 2, 1942).

(b) Multiply the figure so obtained, by the percentage markup provided in section 5.4 (b) (1) (iii) of Article V for sales of packaged cordials and liqueurs by wholesalers to retailers.

(c) Add to the resulting figure in (b) the actual amount of transportation charges paid by the processor if such charges are prepaid by him.

The resulting figure in (b) or (c), as the case may be, is the processor's prescribed uniform maximum price per case for sales of an item shipped directly to the retailer's premises from the bottling plant.

NOTE: The maximum prices so figured include applicable Federal, State or local excise taxes through November 2, 1942. The increase effective April 1, 1944, in Federal excise taxes, or new or increased State or local excise taxes not otherwise included in the prescribed uniform maximum price, may be added to that price in accordance with section 7.3.

(ii) *Sales of items shipped to the retailer's premises from the processor's zone warehouse.* The processor's prescribed uniform maximum price per case for sales to retailers of an item of domestic cordial or liqueur included in the "OPA Classifications" set forth in this appendix, shipped to the retailer's premises from the processor's zone warehouse shall be figured by the processor as follows:

(a) Determine the prescribed uniform maximum price per case, f. o. b. bottling plant, in accordance with subparagraph (1) above for his sales of the item to wholesalers and monopoly States (excluding, however, the increase effective April 1, 1944 in Federal excise taxes or new or increased State or local excise taxes effective after November 2, 1942).

(b) Add to the figure so obtained the actual amount of transportation charges paid by the processor for shipment from the bottling plant to his zone warehouse. No

amount shall be included for local hauling, loading, unloading, drayage or other handling.

(c) Multiply the resulting figure in (b) by the percentage markup provided in section 5.4 (b) (1) (iii) of Article V for sales of packaged cordials and liqueurs by wholesalers to retailers.

The resulting figure in (c) is the processor's prescribed uniform maximum price per case, delivered to the retailer's premises, for his sales of an item to a retailer located within the metropolitan area of the processor's zone warehouse, and it is also the processor's prescribed uniform maximum price per case, f. o. b. zone warehouse, for sales of an item to a retailer located outside the metropolitan area of such warehouse.

NOTE: The maximum prices so figured include applicable Federal, State or local excise taxes through November 2, 1942. The increase effective April 1, 1944, in Federal excise taxes, or new or increased State or local excise taxes not otherwise included in the prescribed uniform maximum price, may be added to that price in accordance with section 7.3.

(4) *Processors' sales to consumers.* The processor's prescribed uniform maximum price per case for sales to consumers for an item of domestic cordial or liqueur included in the "OPA Classifications" set forth in this Appendix, shall be the prescribed uniform maximum price provided in subparagraph (1) above, for sales of the item to wholesalers and monopoly States (excluding, however, the increase effective April 1, 1944 in Federal excise taxes or new or increased State or local excise taxes effective after November 2, 1942), plus the additions provided in section 5.3 (b) (2) and (3) (i) of Article V, and the total thereof multiplied by the percentage markup provided in section 5.5 (b) (1) (iii) of Article V for sales of packaged cordials and liqueurs by retailers to consumers.

NOTE: The maximum prices so figured include applicable Federal, State or local excise taxes through November 2, 1942. The increase effective April 1, 1944, in Federal excise taxes, or new or increased State or local excise taxes not otherwise included in the prescribed uniform maximum price, may be added to that price in accordance with section 7.3.

¹ Prices include Federal excise and rectification taxes at rates in effect on November 2, 1942, but do not include any State or local taxes.

² P. A.—Proof adjustment (adjustment per degree of proof).

³ The prices for Class 9 (Fruit Flavored Brandy) include the amount of the adjustment for fruit spirits provided in Appendix G, and so that adjustment is not applicable to the prescribed uniform maximum prices for cordials in this class (although prices for such items established under Appendix A are subject to the adjustment).

(c) *Adjustment of maximum prices for substitution of certain ingredients.* The processor's maximum price for an item of domestic cordial or liqueur adjusted for the substitution of certain ingredients shall be determined in accordance with the provisions of Appendix G. However, adjustments pursuant to Appendix G are not applicable to items specified in OPA Classification 9, for which the processor has established a prescribed uniform maximum price.

(d) *Reports required to be filed.* On or before the date of making the first sale of an item at a prescribed uniform maximum price established under this appendix, the processor shall, by letter to the Office of Price Administration, Beverage Section, Washington, D. C., report the maximum price so established. The letter-report shall contain the following:

(1) The name and address of the processor filing the report.

(2) A statement that the report is filed under Appendix I to Article III of Maximum Price Regulation 445.

(3) The brand name, container size, type, "OPA Classification" number, kind and proof of the item which is the subject of the report. (Attach front labels, and back labels if any, to letter-report).

(4) The prescribed uniform maximum price, f. o. b. bottling plant, to wholesalers and monopoly states for the item which is the subject of the report, and a statement showing the steps taken by the processor to figure such price, in accordance with the procedures provided in this appendix.

(5) A copy of the approved formula on Treasury Department Form 27 B-Supplemental or a photostatic copy or other facsimile thereof.

(6) A list of all items of cordials and liqueurs of the same brand name sold or offered for sale by the processor during March 1942, if any.

Neither acceptance nor failure to act upon a letter-report filed under this paragraph shall constitute approval by the Office of Price Administration of the maximum prices so reported.

54. Appendix J to Article III is added to read as follows:

(a) *Rules for establishing maximum prices under Appendix J.* (1) The prescribed uniform maximum prices provided in this appendix are applicable to all items of domestic grape, apple, peach, pear, plum (including, but not limited to Slivovitz, Quetsch and Mirabelle), apricot, and dried fruit (other than raisin) brandy. All other items of domestic brandy must be priced under other applicable provisions of Article III.

(2) All items of domestic brandy of a brand name not sold or offered for sale by the processor during March 1942 must be priced under this appendix. Any item of domestic brandy, for which a prescribed uniform maximum price is provided in this appendix, whether or not sold or offered for sale by the processor during March 1942, may be priced under this appendix. However, after once making a sale of a particular item of domestic brandy at the prescribed uniform maximum price provided in this appendix, maximum prices for all sales thereafter of that item bearing the same brand name under any formula, proof, or container size must be established under this appendix.

(3) For all items of domestic brandy not sold or offered for sale by the processor during March 1942 and for which no prescribed uniform maximum price is provided in this appendix, the processor shall establish a special maximum price by authorization in accordance with the provisions of Appendix F.

(4) Any change whatsoever in the brand name of an item of domestic brandy, sold or offered for sale by the processor during March 1942, shall be deemed to be a new brand name and the item so changed must be priced under this appendix. (See section 3.3 for explanation of what constitutes a change of brand name).

(5) Prescribed uniform maximum prices are applicable only to processor's sales to wholesalers, monopoly States, primary distributing agents, retailers and consumers. For all other classes of customers a special maximum price by authorization must be established by application under Appendix F.

(6) Items of domestic brandy bearing no age statement shall be deemed 23 months old.

(b) *Procedures for determining prescribed uniform maximum prices—*(1) *Processors' sales to wholesalers and monopoly States.*

(i) Ascertain from Tables I, II, or III of this appendix, as the case may be, the applicable maximum price per case for the age and container size of the item to be priced.

(ii) Where the proof of the item to be priced differs from the proof shown in the applicable table, multiply the applicable proof adjustment figure by the difference between the proof shown in the table and the proof of the item to be priced. Add to or subtract from, as the case may be, the resulting figure, the amount determined in (i).

(iii) Where State or local excise taxes apply, add to the figure obtained in (i) or (ii), as the case may be, the applicable amount of any State or local excise tax in effect on November 2, 1942; *Provided*, That the amount of such tax imposed is actually paid or has

accrued and become payable by the processor to the proper taxing authority or to any prior vendor; *And provided further*, That the amount of such tax once so added shall not again be added to the maximum prices established hereunder.

NOTE: The maximum prices so figured include applicable Federal, State or local excise taxes through November 2, 1942. The increase effective April 1, 1944, in Federal excise taxes, or new or increased State or local excise taxes not otherwise included in the prescribed uniform maximum price, may be added to that price in accordance with section 7.3.

(2) *Processor's sales to primary distributing agents.* The processor's maximum price per case for an item of domestic brandy for which a prescribed uniform maximum price is provided in this appendix for sales to primary distributing agents, f. o. b. bottling plant, shall be the processor's prescribed uniform maximum price for sales of the item to wholesalers and monopoly States (determined as provided in subparagraph (1) above) subject to any discounts, allowances or price differential agreed upon by the particular processor and primary distributing agent.

NOTE: The maximum prices so figured include applicable Federal, State or local excise taxes through November 2, 1942. The increase effective April 1, 1944 in Federal excise taxes, or new or increased State or local excise taxes not otherwise included in the prescribed uniform maximum prices, may be added to that price in accordance with section 7.3.

(3) *Processor's sales to retailers—*(i) *Sales of items shipped directly to the retailer's premises from the bottling plant.* The processor's prescribed uniform maximum price per case for sales to retailers for an item of domestic brandy for which a prescribed uniform maximum price is provided in this appendix, shipped directly to the retailer's premises from the bottling plant shall be figured by the processor as follows:

(a) Determine the prescribed uniform maximum price per case, f. o. b. bottling plant, in accordance with subparagraph (1) above, for his sales of the items to wholesalers and monopoly States (excluding, however, the increase effective April 1, 1944 in Federal excise taxes or new or increased State or local excise taxes effective after November 2, 1942).

(b) Multiply the figure so obtained by the percentage markup provided in section 5.4 (b) (1) (i) of Article V for sales of packaged brandy by wholesalers to retailers.

(c) Add to the resulting figure in (b) the actual amount of transportation charges paid by the processor if such charges are prepaid by him.

The resulting figure in (b) or (c), as the case may be, is the processor's prescribed uniform maximum price per case for sales of an item shipped directly to the retailer's premises from the bottling plant.

NOTE: The maximum prices so figured include applicable Federal, State or local excise taxes through November 2, 1942. The increase effective April 1, 1944 in Federal excise taxes, or new or increased State or local excise taxes not otherwise included in the prescribed uniform maximum price, may be added to that price in accordance with section 7.3.

(ii) *Sales of items shipped to the retailer's premises from the processor's zone warehouse.* The processor's prescribed uniform maximum price per case for sales to retailers of an item of domestic brandy for which a prescribed uniform maximum price is provided in this appendix, shipped to the retailer's premises from the processor's zone warehouse, shall be figured by the processor as follows:

(a) Determine the prescribed uniform maximum price per case, f. o. b. bottling plant, in accordance with subparagraph (1) above, for

his sales of the item to wholesalers and monopoly States (excluding, however, the increase effective April 1, 1944 in Federal excise taxes or new or increased State or local excise taxes effective after November 2, 1942).

(b) Add to the figure so obtained the actual amount of transportation charges paid by the processor for shipment from the bottling plant to his zone warehouse. No amount shall be included for local hauling, loading, unloading, drayage or other handling.

(c) Multiply the resulting figure in (b) by the percentage markup provided in section 5.4 (b) (1) (i) of Article V for sales of packaged brandy by wholesalers to retailers.

The resulting figure in (c) is the processor's prescribed uniform maximum price per case, delivered to the retailer's premises, for his sales of an item to a retailer located within the metropolitan area of the processor's zone warehouse, and it is also the processor's prescribed uniform maximum price per case, f. o. b. zone warehouse, for sales of an item to a retailer located outside the metropolitan area of such warehouse.

NOTE: The maximum prices so figured include applicable Federal, State or local excise taxes through November 2, 1942. The increase effective April 1, 1944, in Federal excise taxes, or new or increased State or local excise taxes not otherwise included in the prescribed uniform maximum price, may be added to that price in accordance with section 7.3.

(4) Processor's sales to consumers. The processor's prescribed uniform maximum price per case for sales to consumers for an item of domestic brandy for which a prescribed uniform maximum price is provided in this appendix, shall be the prescribed uniform maximum price provided in subparagraph (1) above, for sales of the item to wholesalers and monopoly States (excluding, however, the increase effective April 1, 1944, in Federal excise taxes, or new or increased State or local excise taxes effective after November 2, 1942), plus the additions provided in section 5.3 (b) (2) and (3) (1) of Article V and the total thereof multiplied by the percentage markup provided in section 5.5 (b) (1) (i) of Article V for sales of packaged brandy by retailers to consumers.

NOTE: The maximum prices so figured include applicable Federal, State or local excise taxes, through November 2, 1942. The increase effective April 1, 1944 in Federal excise taxes, or new or increased State or local excise taxes not otherwise included in the prescribed uniform maximum price may be added to that price in accordance with section 7.3.

CONSENT ORDER

Nate L. Koin and Dorothy M. Koin are partners doing business as Ellis Canning Company at 1565 Alcott Street, Denver, Colorado. Their business consists in part in packing chile-con-carne in glass containers for sale for civilian consumption. They use a new metal closure to seal up each packed container. They are charged by War Production Board with violating Priorities Regulation No. 1 between January 7, 1944, and February 19, 1944, by accepting and receiving delivery of 2,936,090 new metal closures of a value of \$21,338.92 in excess of a practical minimum working inventory for the operation of their business. Nate L. Koin and Dorothy M. Koin, doing business as Ellis Canning Company, admit the violation as charged, but deny that it was wilful and have consented to the issuance of this order.

Wherefore, upon the agreement and consent of Nate L. Koin and Dorothy M. Koin, the Regional Compliance Manager and the Regional Attorney, and upon the approval of the Compliance Commissioner, it is hereby ordered, that:

(a) During the twelve months' period, beginning March 1, 1945, and ending February 28, 1946, Nate L. Koin and Dorothy M. Koin, doing business as Ellis Canning Company, their successors or assigns, shall not order, purchase or accept delivery of metal closures unless specifically authorized in writing by the War Production Board.

(b) Nothing contained in this order shall be deemed to relieve Nate L. Koin and Dorothy M. Koin, doing business as Ellis Canning Company, their successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except insofar as the same may be inconsistent with the provisions hereof.

Issued this 14th day of March 1945.
